

Are you interested in finding out why arsonists are burning new construction homes in this Maryland suburb?

Then perhaps...

Civic Environmentalism & Smart Growth

CRN# 42623 PUA 2290

T 6-9 pm Spring '05

...is a good class for you

Sprawl happens. American cities are spreading out, covering the countryside, filling the wetlands, and shrinking what is left of our exurban forests. Is this pattern of development inevitable? This class looks at the turn to civic environmentalism and smart growth, which are recent responses to the longstanding neglect of the urban environment.

First class is Tuesday January 11, 2005
